

Prescribing Buprenorphine...

*According to the
Drug Addiction
Treatment Act of
2000 (DATA)
(PL106-310), the*

American Society of Addiction Medicine (ASAM) is one of five organizations authorized to provide Buprenorphine and Office-Based Treatment of Opioid Dependence training. DATA permits qualified physicians to obtain waivers to prescribe certain narcotic drugs in Schedule III, IV or V of the Controlled Substances Act, in their office practices or in a clinic setting, for the treatment of opioid dependence. Both buprenorphine and buprenorphine/naloxone are approved by FDA for use in detoxification and maintenance treatment of opioid dependence. Physicians who complete the 8-hour course will meet the training qualification under the law and will receive a certificate of attendance suitable to send to the Secretary of HHS along with the request for the waiver.

Faculty

PETER D. FRIEDMANN, M.D., M.P.H.

*Medical Director, White Deer Run of Lancaster, Pennsylvania
Medical Director, Nuestra Clinica*

Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the Joint-Sponsorship of MedChi, The Maryland State Medical Society, and Western Maryland Health System. MedChi is accredited by the ACCME to provide CME activities for physicians.

MedChi designates this continuing medical education activity for a maximum of 8 category 1 credits towards the American Medical Association's Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the educational activity.

It is the policy of MedChi to comply with the ACCME Standards for Commercial Support of Continuing Medical Education. In keeping with these standards, all faculty participating in continuing medical education programs sponsored by MedChi, The Maryland State Medical Society are expected to disclose to the program audience any real or apparent conflict of interest related to the content of their presentation.

Who should attend

Primary care physicians,
psychiatrists and other office-based
health care providers interested in
helping
patients who suffer from heroin,
OxycontinR or opioid dependence.

- ◆ Small Group Case Discussion
- ◆ Large Group Question and Answer Session, Course Evaluation and Wrap-up
- ◆ Completion of Waiver Notification Forms
- ◆ Questions & Answers ~ Evaluation & Adjournment

Only physicians who are present for ***all*** sessions will receive certification to prescribe buprenorphine as per the Drug Addiction Treatment Act of 2000.

Please bring a photo ID.

Your photo ID is required as part of the sign-in process; your attendance must be confirmed by your signature at the beginning of the morning and afternoon sessions and at the conclusion of the program.

Objectives

After participating in this course, physician-participants should be comfortable with:

- *the prerequisites for a physician to begin to prescribe buprenorphine in office-based practice;*
- *the clinically relevant pharmacological characteristics of buprenorphine;*
- *factors to consider in determining if a patient is an appropriate candidate for office-based treatment;*
- *induction & maintenance onto buprenorphine;*
- *recognition of important co-morbid conditions in opioid dependence;*
- *strategies for integrating psychosocial care with office-based pharmacological treatment;*
- *treatment strategies for management of chronic and acute pain in patients in maintenance treatment for opioid dependence;*
- *office management of opioid dependent patients .*

Venue & Travel
